

ref. **53927**

### BATTERY CHARGER 6/12V

#### Function

This product is perfect for charging your car battery in no time. It is compact, easy to use and easy to store. It has a power of 60 watts that provides a fast charge.

#### Advantages

- ✓ Fast charging
- ✓ Compact and easy to carry
- ✓ Light weight

#### Technical specifications

Maximum voltage	- Input: 100-240VAC 50/60Hz - Output: 7,2V 3.6A/0.9 A
Maximum power	<b>60W</b>
Load voltage	- Normal 6V batteries: 2V - 12V normal batteries: 14,4V - 6V cold or AGM batteries: 7,4V - 12V cold or AGM batteries: 14,7V
Maximum charging current	<b>3.6A</b>
Minimum load current	<b>0.9A</b>
Working temperature	<b>0 ~ 40°C</b>
Compatible with 12/24V lead acid batteries	<b>Wetted, GEL, MF and AGM</b>
Charging type	<b>8-step automatic mode</b>
Length of power input cable	<b>1,5m</b>
Power output cable length (with clamps)	<b>1,5m</b>
Weight	<b>0,55kg</b>
